Profile

I am a content strategist who builds with AI, not just writes about it. For the past two years I have shipped real content operations on the Anthropic API, Claude Code and Replit from the marketing seat at 90 Seconds. A 300+ page website migration run by AI agents. A HubSpot Customer Agent live in production. Internal tooling that integrates CRM and SEO data to map markets and ICPs at scale.

I have 15+ years of marketing experience across tech, B2B SaaS, tourism and higher education. My lane is problem framing and prompting, not deep engineering. I think in ICPs and search moments, not keywords. I have briefed editorial direction across creator, B2B SaaS and consumer audiences, and I am genuinely curious about how AI Search reshapes how brands earn organic visibility.

What I am looking for next is a full-time content strategy seat with a Marketing Engineer partner, where AEO is treated as a serious specialism and AI fluency is a hiring requirement, not a nice-to-have.

Core capability

- **AI Search and AEO.** Genuine curiosity about how AI models cite, rank and recommend. Two years of hands-on building in the same stack the answer engines run on.
 - **AI tooling for content ops.** Daily use of Claude (Sonnet and Opus), Claude Code, Replit and the Anthropic API. I design the workflow, write the prompts, and let the agents do the implementation work.
 - **Content systems at scale.** 300+ page AI-driven website migration. AI-scored content inventories. Automated content classification and mapping pipelines.
 - **ICP and search intent mapping.** Built segmentation by buyer type, geography and customer status across enterprise SaaS, B2B agency clients and consumer tourism brands.
 - **Editorial direction.** Briefing, not writing. Multi-format content programmes across long-form, video, web, social, lifecycle and field.
 - **Organic growth depth.** Inbound, SEO content, lifecycle and conversion optimisation in HubSpot. 15+ years of evidence.
 - **Cross-functional partnership.** Already work daily with Product, Engineering and Design counterparts inside my current company.
-

Selected AI and content systems builds

300+ page website migration system (90 Seconds, 2025)

A first-principles redesign of a problem usually solved by a content audit committee and a migration agency. I built an AI-scored content inventory and an automated migration pipeline on the Anthropic API. Pages get crawled, classified, scored and migrated by agents. System live; rollout in flight. Direct mirror of the content operations and Marketing Engineer partnership this role is designed around.

HubSpot Customer Agent in production (90 Seconds, 2025)

Configured and shipped HubSpot's AI Customer Agent to handle incoming customer service queries. Live, in production. Proof that I can move AI from experiment to production marketing system with real customer load on the other side.

GTM OS market and content coverage mapping (90 Seconds, 2024 – current)

Internal AI operations tool architected by our VP of Product. Integrates CRM and SEMrush data with a Postgres database to automate market mapping, ICP segmentation and content coverage analysis. My contribution is the marketing and content layer: prompting, scoring criteria and detail refinement on the workflow. Replaced a manual quarterly audit cycle with continuous gap analysis.

90Labs sales enablement platform (90 Seconds, 2024)

Designed and built solo via Replit, with Claude and Claude Code doing the engineering under my prompts. Hosts 29+ active digital assets (landing pages, capability decks, trends decks) plus a custom Pitch Builder in beta rollout to the global sales team.

Pipeline contribution (90 Seconds, 2024 – current)

\$5M in opportunities generated since June 2024 through inbound, paid, ABM, lifecycle and field. Marketing-sourced and marketing-influenced contribution reported into leadership each cycle.

Experience

Head of Marketing, 90 Seconds – 12/2023 – Present

Member of the Leadership Team, reporting to the CEO. Lead an APAC marketing team of 2 direct reports. Partner with sales and marketing counterparts across US, UK and EMEA to drive growth for the platform.

Highlights:

- Shipped the AI-driven 300+ page website migration system on the Anthropic API.
- Designed and built 90Labs sales-enablement platform end-to-end via Replit.
- Configured the HubSpot Customer Agent for AI-led customer service triage.
- Contribute to GTM OS, the internal AI operations tool architected by the VP of Product.

- Generated \$5M in opportunities through inbound, paid, ABM, lifecycle and field since June 2024.
- Delivered new brand and launched the new multilingual website in the first two months of the role.

Digital Marketing Manager, Refuel Creative — 08/2020 – 12/2023

Member of the Leadership Team, reporting to the CEO. 4 direct reports, Adelaide-based, serving clients across AU, US and UK. Managed \$900K+ in annual budgets across data-led ad strategy and HubSpot implementation.

Briefed editorial direction and content strategy across diverse ICPs: industrial B2B SaaS (K-TIG), professional services (ACBG, BDO), national consumer (hostel chain), accessible-services (Carers and Disability Link), gaming consumer (TreesPlease Games), property tech (FlatRateNow), public-sector innovation hub (Lot Fourteen). Same skill the JD is asking for: think in ICPs, not keywords.

Highlights:

- \$350K in revenue generated from winning proposals over 18 months, including the Lot Fourteen social strategy contract.
- 172% lead increase for K-TIG via a full HubSpot rebuild across Marketing, Sales, Service and CMS Hubs. Won the 2023 HubSpot Impact Award for Platform Excellence.
- 82x ROAS on Google Search for a national hostel chain. Approx \$410K revenue.
- 4,000 inactive SaaS subscribers re-engaged via nurture workflow. 1,000 reactivated. 20% trial lift.
- 500,000+ Play Store users acquired for TreesPlease Games at 20% reduced CPI across BR, US, CA, NZ, AU and UK.
- 3.8x over MQL target on social campaigns for a CEO/MD audience for a university executive programme.

Founder and Director, Digital Adelaide — 06/2015 – 12/2025

Founded and ran South Australia's largest marketing conference. Grew from 40 to 200+ delegates over nine years. Built the partner and speaker programme.

Brand Marketing Executive, then Digital Marketing Executive, SeaLink Travel Group — 04/2015 – 08/2020

Multi-brand portfolio across Kangaroo Island Ferries, Bruny Island, Murray Princess. Segmented by buyer type, geography and customer status. Highlights: lifted Bruny Island NPS from -50 to +10 via a community-led launch; \$326K Kangaroo Island sale, up 97% YoY; \$120K annual ad spend at 10x ROAS, approx \$1M revenue per year.

Head of Digital, then Account Manager, Nucleus — 02/2013 – 04/2015

Lecturer, UniSA Creative — 07/2016 – 12/2018

Lecturer, TAFE SA School of Business and Marketing — 03/2011 – 12/2018

Designed and delivered the first tertiary social media course in Australia at TAFE SA in 2011.

Qualifications

- 2022: Certified Practising Marketer (CPM), Australian Marketing Institute
- 2022: Scrum Master Certified (SMC), Scrum Alliance
- 2020: Inbound Certified, HubSpot Academy
- 2020: Google Ads Certifications
- 2013: Bachelor of Media (Marketing), University of Adelaide

Awards

- 2023: HubSpot Impact Awards, Platform Excellence (172% B2B lead increase)
- 2022: BDO Fast Movers List (Refuel Creative top 25 fastest moving in SA)
- 2020: HubSpot Impact Awards, Grow Better Sales (445% subscription increase, SaaS startup)
- 2020: HubSpot Impact Awards, Integrations Innovation (SaaS startup)

Tools I work in daily

AI and LLM: Claude (Sonnet and Opus), Claude Code, ChatGPT, Perplexity, Gemini, Anthropic API. **Build and prototype:** Replit (agent-driven development), FigmaMake, Claude Design. **Content and creative:** Midjourney, Grok, OpusClip. **Go-to-market tech:** HubSpot (expert, including Breeze, ContentRemix and Customer Agent), Google Analytics, Google Ads, Meta Ads, SEMrush.

Open to whatever the team is using. Relevance, Lindy and n8n are on my radar.
