## Career Summary

I work with B2B SaaS sales teams to drive new-business pipeline through hands-on growth marketing, marketing automation and AI.

About me:

- 15+ years in marketing, the last decade across enterprise B2B SaaS, eCommerce and DTC, spanning Asia-Pacific (APAC), US, UK and EMEA.
- Generated \$5M in opportunities since June 2024 in a long-cycle, multi-touch enterprise sales motion.
- A hands-on operator who builds and troubleshoots automations, integrations and the marketing tech stack myself, not just briefs them.
- An AI builder by practice: GTM Playbook, Replit, the Anthropic API and a live HubSpot Customer Agent, and I coach teams to adopt AI by example.
- Award-winning HubSpot operator with a sharp commercial lens on budget, attribution and ROAS.
- Led teams of four and partner tightly with Sales and Revenue Operations on pipeline contribution and conversion.
