Career Summary

I grow B2B platforms through partners and ecosystems. - AI builder shipping in production: built **90Labs** in Replit, configured a live HubSpot Customer Agent, and ran a **300+ page** Anthropic-API website migration.

Core competencies

Partner, channel and ecosystem marketing. I market through partners and platform ecosystems. At Refuel I marketed as a HubSpot Solutions Partner: co-marketing with the platform, running HubSpot User Group meetups to build the Adelaide HubSpot community, and winning three HubSpot Impact Awards, including Integrations Innovation for driving adoption of third-party integrations. For a decade at Digital Adelaide I built and grew the

sponsor and partner relationships behind South Australia's largest marketing conference, giving partners a stage in front of 270+ marketers. I also produce the sales enablement that partner-facing teams use to sell, including for SeaLink's business development team.

Localising global playbooks for a market. I run integrated campaigns across APAC, North America, the UK and EMEA, adapting global brand and messaging to each market so execution lands locally. I lead the global marketing function from a base in APAC, so translating a global playbook into strong regional execution is what I do every week.

Demand generation and measurable outcomes. Multi-channel programmes built end to end against SQL and pipeline targets. Generated **\$5M in opportunities** at 90 Seconds since June 2024, lifted B2B leads **172%** in three months on a single build, and drove a **445% subscription increase** for an early-stage SaaS partner. I measure to leads, acquisition and product adoption, not activity.

Events, enablement, lifecycle and co-marketing. Ran HubSpot User Group meetups and webinar programmes on Zoom Webinars, curated conference line-ups for a decade, built lifecycle nurture that re-engaged **4,000 inactive subscribers** and brought **1,000** back, and produced the enablement and co-marketing assets partners and sales use to sell.

HubSpot, reporting and campaign performance. Expert-level HubSpot operator and three-time Impact Award winner. Built **307 custom reports across 17 dashboards** on a single build, covering lifecycle, attribution, sales handover and executive summaries. I document plans, track performance and optimise the next round from what the numbers say.

Stakeholder and project management. Scrum Master Certified. Member of the Leadership Team in my current and prior roles, reporting to the CEO, and comfortable holding marketing, sales, product and external partners to the same number.

AI-enabled marketing and automation. Built 90Labs in Replit and configured the HubSpot Customer Agent at 90 Seconds. Build marketing tooling daily with Claude, Claude Code, Replit and the Anthropic API, including a **300+ page** website migration run by AI agents.

Technical stack

- **Marketing and Service Tech:** HubSpot (expert level, Impact Award winner; Marketing, Sales, Service, CMS and AI), Google Analytics 4, Google Ads, Meta Ads, LinkedIn Campaign Manager, Mailchimp, Posthog, Zoom Webinars.
- **SEO and Analytics:** SEMrush, Google Search Console, Screaming Frog, Google Data Studio (multi-year), HubSpot reporting (**307 reports across 17 dashboards**).
- **AI and automation:** Claude (Sonnet and Opus), Claude Code, Replit and the Anthropic API for marketing tooling, HubSpot Breeze and ContentRemix, HubSpot Customer Agent, FigmaMake, Midjourney, OpusClip, Grok.
